Product Description

Durable Adjustable Steel Prop With Adjustable Height For Robust Telescopic Scaffolding Props

Product Description:

The Adjustable Steel Prop is a durable and heavy-duty building support system designed for various scaffolding needs. It is made of high-grade steel and coated with a special spray paint for extra protection against corrosion and rust. Its galvanized surface ensures its rust-proof durability. The adjustable height feature allows the prop to be adjusted to different levels, making it an ideal support for any construction job. It also has a great loading capacity to handle heavier items. Packaged securely in a container, the Adjustable Steel Prop is a reliable and sturdy solution for any building support need.

Support and Services:

We offer comprehensive technical support and service for our Adjustable Steel Prop. Our technical support is available to all customers who purchase our product.

Our technical support team is available to answer any questions you may have about using and maintaining our Adjustable Steel Prop. We will provide you with comprehensive instructions on how to use and maintain your product, as well as provide any necessary troubleshooting assistance. We also provide warranty coverage for our product should any faults occur. Our customer service team is available to answer any inquiries you may have about our product or your order. We are committed to providing our customers with the highest level of service and support.

Packing and Shipping:

Adjustable Steel Prop should be packaged and shipped in a cardboard box. The box should be lined with a foam padding that provides cushioning and protects the Adjustable Steel Prop from damage during transit. The box should also be sealed with a plastic wrap to keep the contents secure and intact. An additional layer of foam padding should also be placed on top of the Adjustable Steel Prop to ensure complete protection. The box should be labeled with the product name, description, and a list of safety precautions. Additionally, the box should be clearly labeled with the shipping address.
