Product Description

Supportive Adjustable Steel Prop For Container Packaging And Support - Silver

Product Description:

Our Adjustable Steel Prop is an ideal support system for formwork and temporary scaffolding. It is made of high-quality steel with heavy weight, and is treated with HDG surface treatment to ensure a long-term corrosion protection. This steel prop is standard in size and adjustable in height, making it an ideal choice for a wide range of applications, such as in construction, civil engineering, and concreting works. It is also known as adjustable scaffolding steel prop, steel prop jack, and steel props for concreting.

Technical Parameters:

Features	Specifications
Light Duty Steel Prop	Durable
Steel Props for Concreting	Adjustable Height
Construction Site Props	Container Packaging
Color	Silver
Size	Standard
Weight	Heavy
Function	Support
Usage	Construction
Surface Treatment	HDG
Material	Steel

Applications:

Our **scaffolding steel prop**, Model Number BM211, is produced in China Tianjin, and requires a minimum order of 1500 pieces. With a price range of 4.5-8.5, our adjustable steel prop is ready for delivery within 10-25 days. Constructed with durable steel material, the steel prop is then treated with HDG spray paint to ensure its longevity. The adjustable steel prop can be adjusted to various heights and is packed in containers for easy transportation.
The highlighted features of our adjustable steel prop include its **durability**, **adjustability**, and **spray paint** treatment. The steel prop is highly resistant to wear and tear, and will last for a long time. The adjustable steel prop allows users to customize its height to fit their specific needs. Additionally, the steel prop is treated with spray paint for an extra layer of protection against corrosion and rusting.

Customization:

Customized Service of Adjustable Steel Prop
