Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Length: Customized
- Packaging: Container
- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Material: Steel
- Usage: Scaffolding

Product Description

Product Description:

Scaffolding Plank Product Overview

The Scaffolding Plank is a highly durable and versatile product designed specifically for use in scaffolding. Made from high quality steel, it is the perfect solution for all your scaffolding needs.

Packaging: The Scaffolding Plank is packaged in a sturdy container, ensuring safe transportation and storage. This container packaging is ideal for easy handling and protection during shipment.

Usage: The Scaffolding Plank is specifically designed for use in scaffolding, providing a strong and stable platform for construction workers to perform their tasks. It is a key component in the construction industry and is essential for any scaffolding project.

Surface: The Scaffolding Plank is available in three surface options: pre-galvanized, hot dip galvanized, and spray plastic. The pre-galvanized option offers a protective layer of zinc coating to prevent rust and corrosion. The hot dip galvanized option provides an even thicker layer of zinc coating for enhanced protection. The spray plastic option offers a durable and weather-resistant surface for prolonged use.

Length: The length of the Scaffolding Plank can be customized according to your specific needs. We understand that every project is different, and we offer a range of lengths to ensure that you have the perfect fit for your scaffolding requirements.

Place of Shipment: The Scaffolding Plank is manufactured in China and can be shipped to any location around the world. Our efficient logistics network ensures timely delivery and competitive pricing for our customers.

Key Features:

Made from high quality steel

Available in pre-galvanized, hot dip galvanized, and spray plastic surface options

Customizable length for a perfect fit

Container packaging for safe transportation and storage

Suitable for scaffolding use

Shipped from China to any location worldwide

The Scaffolding Plank is a reliable and durable solution for all your scaffolding needs. Its high-quality construction and customizable options make it a top choice for construction projects. Contact us today for more information and to place your order.

Technical Parameters:

Technical Parameters	Description
Product Name	Scaffolding Plank

Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Length	Customized
Usage	Scaffolding
Packaging	Container
Material	Steel
Additional Features	Galvanized steel plank catwalk, scaffolding steel plank, scaffolding steel plank with hooks

Applications:

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

The Bythai Scaffolding Plank is a perfect solution for all your scaffolding needs. Made of high-quality steel, our scaffolding plank is designed to provide a strong and sturdy platform for workers to stand on while working at heights. It is suitable for a variety of construction projects and can be used in both indoor and outdoor settings.

Our scaffolding plank is available in different sizes - 230mm, 240mm, and 250mm, giving you the flexibility to choose the size that best suits your requirements. The length of the plank can also be customized according to your needs, making it a versatile product for any scaffolding project.

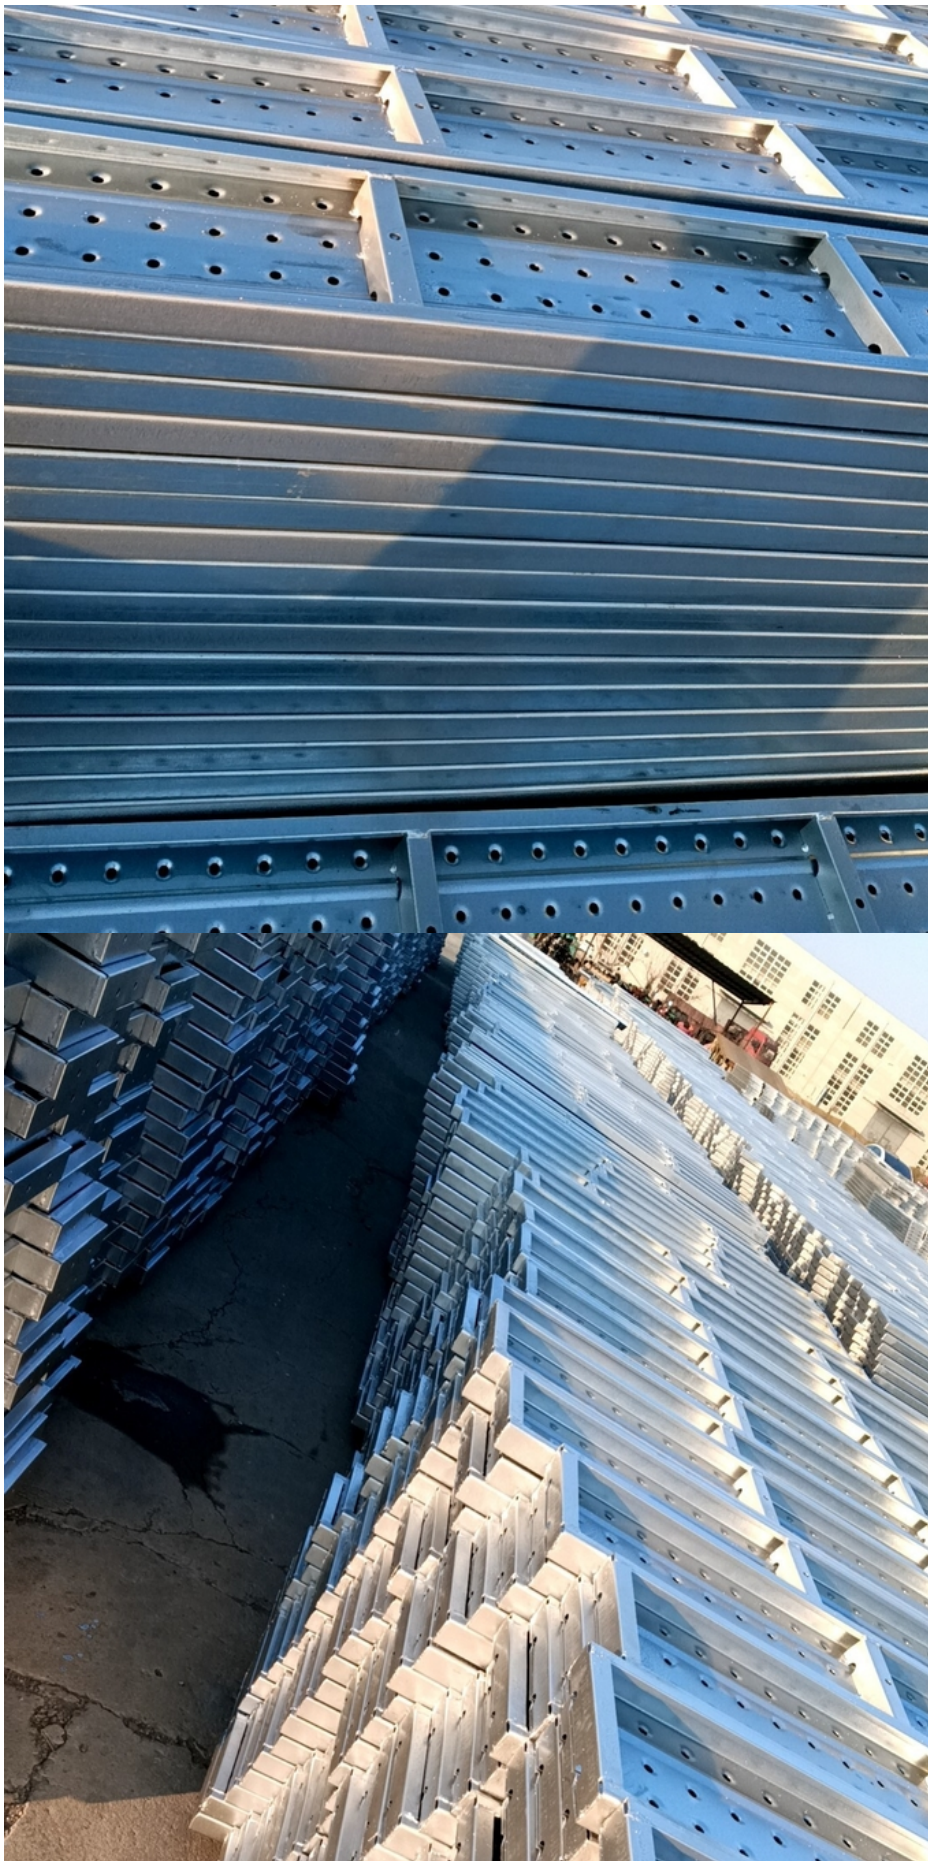

One of the key features of our scaffolding plank is its perforated design. This allows for better grip and prevents slipping, ensuring the safety of workers. The plank is also pre-galvanized, hot dip galvanized, or spray plastic coated, providing protection against rust and corrosion.

Our scaffolding plank is not only durable and strong but also easy to assemble. It can be easily attached to scaffolding frames and other scaffolding components, making the construction process quick and efficient. It is also lightweight, making it easy to transport and store.

The Bythai Scaffolding Plank is suitable for a wide range of applications, including building construction, bridge construction, shipbuilding, and industrial maintenance. It is a cost-effective option, offering great value for money. With a minimum order quantity of 1000 pieces and a competitive price range of 4.5-8.5, our scaffolding plank is the perfect choice for both small and large-scale projects.

Our packaging details include bundling the planks, ensuring safe and secure delivery. We offer prompt delivery services, with a delivery time of 10-15 days. Our payment terms include containers or shipping, making it easy for our customers to make payments.

In conclusion, the Bythai Scaffolding Plank is a reliable and efficient product that meets all the necessary safety standards. With its high-quality material, customizable options, and easy assembly, it is the go-to choice for all your scaffolding needs. Contact us today to get your hands on our top-notch scaffolding plank and take your project to new heights!

Choose Bythai for your custom scaffolding plank needs and rest assured that you will receive a top-quality product from China. Contact us now to place your order and ensure a safe and efficient scaffolding experience.

Packing and Shipping:

Packaging and Shipping of Scaffolding Plank

Our Scaffolding Planks are carefully packaged and shipped to ensure safe delivery to our customers. Each package contains a set number of planks, depending on the customer's order size.

Packaging

Our Scaffolding Planks are packaged in strong, durable materials to protect them during shipping and handling. Each plank is individually wrapped in plastic to prevent scratches and damage. They are then stacked and secured with straps to ensure stability during transportation.

For larger orders, the planks are packaged on pallets and shrink-wrapped for added protection. This also makes it easier for our customers to unload and store the planks upon delivery.

Shipping

We offer various shipping options to meet our customers' needs. Our standard shipping method is by truck or container, depending on the order size and destination.

For local orders, we offer same-day or next-day delivery, depending on the time the order is placed. For international orders, we work with reliable shipping carriers to ensure timely and secure delivery.

Once the order is shipped, we provide our customers with a tracking number so they can monitor the status of their delivery. We also have a dedicated customer service team to assist with any shipping inquiries or concerns.

Additional Precautions

In addition to carefully packaging and shipping our Scaffolding Planks, we also take extra precautions to ensure their safety during transportation. This includes using weather-resistant materials for packaging, as well as securing the planks with additional straps or padding for long-distance shipments.

Our goal is to deliver our Scaffolding Planks in perfect condition to our customers, and we take every step necessary to achieve this. We pride ourselves on providing top-quality products and services, and our packaging and shipping process is no exception.
