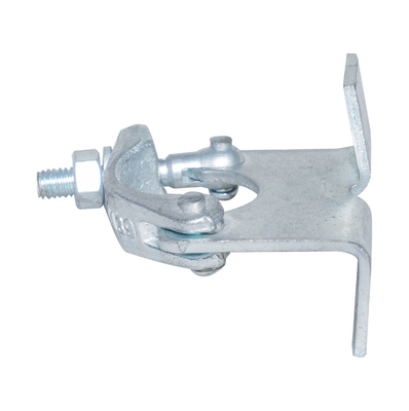
# China Construction Scaffolding Coupler With High Strength And Reliability

Our Product Introduction

## Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 15-25
- Payment Terms: TT/TC



## Product Specification

- Package: Container
- Surface Treatment: Galvanized
- Standard: EN74-1
- Feature: High Strength
- Application: Construction
- MOQ: 1000
- Color: Silver
- Name: Scaffolding Coupler
- Highlight: **Corrosion Resistance Scaffolding Coupler**, **Rust Resistance Scaffolding Coupler**, **EN74-1 Scaffolding Fixed Coupler**

## Product Description

### Product Description:

Scaffolding Coupler - The Must-Have Scaffold Beam Connector for Construction

Are you looking for a reliable and durable scaffold coupler for your construction needs? Look no further, because our Scaffolding Coupler is the perfect solution. Made with high-quality materials and designed for easy installation, this coupler will ensure the safety and stability of your scaffolding system.

Package

Our Scaffolding Coupler comes in a sturdy container for easy transportation and storage. This makes it convenient for construction workers to carry and use on site.

Surface Treatment

Each coupler is galvanized to provide maximum protection against rust and corrosion. This ensures the longevity of the product and maintains its high-quality appearance.

Name

The name says it all - Scaffolding Coupler. This coupler is specifically designed to connect scaffold beams securely, providing a strong and stable scaffolding system.

Application

Our Scaffolding Coupler is the perfect tool for construction projects of any size. Whether you are building a small structure or a high-rise building, this coupler will provide the necessary support and stability for your scaffolding system.

Color

The coupler comes in a sleek silver color, making it easy to spot and identify on your construction site. This ensures that it is used in the correct place and provides a professional appearance.

Key Features

Made with high-quality materials for durability and strength

Galvanized surface treatment for rust and corrosion resistance

Specifically designed for connecting scaffold beams

Suitable for all types of construction projects

Sleek silver color for easy identification on site

Don't compromise on the safety and stability of your scaffolding system. Choose our Scaffolding Coupler for a reliable and durable solution. Contact us today to place your order and experience the difference of using high-quality Japanese scaffold accessories.

## Customization:

Surface Treatment: **Galvanized**
Introducing our **Scaffolding Coupler** - a versatile and reliable scaffold clamping system designed for all your construction needs. Made from high-quality steel, our couplers are built to withstand heavy loads and harsh weather conditions.
Our couplers are manufactured in compliance with the British Scaffold Fixtures standard, ensuring safety and stability on the job site. They are also compatible with JIS Standard Couplings, making them a universal fit for various scaffolding systems.
At Scaffolding Coupler, we understand that every project is unique and may require specific coupler specifications. That's why we offer customized services to meet your specific needs. From size and color to surface treatment, we can tailor our couplers to your exact requirements.
Rest assured that our couplers are SGS certified, guaranteeing their quality and durability. They are also competitively priced at $4.5-8.5 per piece, providing excellent value for your money.
Our couplers are packaged in bundles and can be delivered in 15-25 days depending on your location. We accept various payment terms, including TT/TC, to make the transaction process convenient for you.
So why wait? Choose Scaffolding Coupler for your next construction project and experience the difference in quality and service.
