Product Description

Product Description:

Base Jack Scaffolding

Base Jack Scaffolding is a type of scaffolding support system used in building construction. Made of high quality steel, this product is designed to provide a stable and secure platform for workers to perform their tasks at elevated heights. The adjustable nature of Base Jack Scaffolding makes it a versatile and essential tool for any construction project.

Product Name: Base Jack Scaffolding

The name 'Base Jack' comes from the adjustable nut located at the base of the scaffolding support. This nut allows for easy height adjustment, providing a strong and stable base for the scaffolding structure. The Base Jack Scaffolding is a crucial component in any scaffolding system, ensuring safety and stability for workers and materials.

Surface Treatment: Painted/ Electro-Galvanized/ HDG

Base Jack Scaffolding is available in three surface treatment options - painted, electro-galvanized, and hot-dip galvanized (HDG). The painted option provides a smooth and durable surface, while the electro-galvanized option offers enhanced corrosion resistance. The HDG option provides the highest level of protection against rust and corrosion, making it suitable for outdoor use and harsh environments. Color: Silver

The standard color for Base Jack Scaffolding is silver. This color not only gives the product a sleek and professional look, but also makes it easy to spot on a construction site. However, custom color options are available upon request to meet specific project needs.

Usage: Building Construction

Base Jack Scaffolding is primarily used in building construction, providing a safe and sturdy platform for workers to perform tasks such as painting, plastering, and maintenance work. It is also commonly used in bridge construction, shipbuilding, and other industrial projects that require elevated access.

MOQ: 1000

The minimum order quantity (MOQ) for Base Jack Scaffolding is 1000 pieces. This ensures that customers have an adequate supply of this essential scaffolding support for their construction projects. However, larger quantities can be ordered to meet the needs of bigger projects.

Scaffolding Accessories

Base Jack Scaffolding is just one component of a complete scaffolding system. To ensure maximum safety and efficiency, scaffolding accessories such as cross braces, guardrails, and platforms are also available. These accessories are designed to work seamlessly with Base Jack Scaffolding, providing a complete and reliable scaffolding solution.

Order your Base Jack Scaffolding today and experience the high quality, durability, and versatility of this essential scaffolding support. Trust in our product to keep your construction site safe and efficient.

Applications:

Welcome to Base Jack Scaffolding

Thank you for choosing our scaffolding screw jack, model number BM212, as your scaffolding support. Our products are proudly made in China, specifically in Tianjin, ensuring the highest quality and durability.

Our Base Jack Scaffolding is perfect for building construction, providing adjustable height and sturdy support for your construction site. With a minimum order quantity of 1500, we offer our products at a competitive price range of 4.5-8.5, making it a cost-effective solution for your construction needs.

Our Screw Jack is designed to be easy to use, ensuring safety and efficiency on the job site. It is also suitable for maintenance and assembly, as well as disassembly, making it a versatile tool for any construction project.

With a 2-year warranty, you can trust our scaffolding support to be durable and long-lasting, providing stability and load bearing for your construction needs. Made from high-quality steel, our product guarantees convenience and safety for your workers.

Our scaffolding screw jack is not just a tool, it is a solution for your construction needs. Its efficient design and sturdy structure make it a reliable and essential tool for any construction site. It is also easy to transport and pack, as it comes in containers, ensuring convenience for your business.

So why wait? Choose Base Jack Scaffolding for your construction needs and experience the difference in quality and efficiency. With a MOQ of 1000, you can easily order our product and have it delivered in just 10-25 days. Trust us to provide the best scaffolding support for your projects.

Base Jack Scaffolding - Your sturdy and efficient scaffolding solution.

Packing and Shipping:

Base Jack Scaffolding Packaging and Shipping

Thank you for choosing Base Jack Scaffolding! Our highly durable and versatile scaffolding system is designed to meet all your construction needs. To ensure the safe and efficient delivery of our product, we have implemented strict packaging and shipping procedures.

Packaging

All our scaffolding components are carefully inspected and packaged in strong, reinforced cardboard boxes. Each box is labeled with the product name, quantity, and handling instructions for easy identification and handling. We also use protective materials, such as foam and bubble wrap, to prevent any damage during transit.

In addition to the individual components, we also offer complete scaffolding sets that are packaged in sturdy wooden crates. These crates are designed to withstand the rigors of transportation and protect the contents from any external damage.

Shipping

We work with trusted and reliable shipping companies to ensure that your order reaches you in a timely and secure manner. Our team carefully calculates the weight and dimensions of your order to determine the most appropriate and cost-effective shipping method.

We offer both domestic and international shipping options, and we strive to provide competitive rates for all our customers. Once your

order is shipped, we will provide you with a tracking number so you can monitor the progress of your delivery.
For international orders, please note that additional customs fees and taxes may apply. These fees are the responsibility of the customer, and we recommend checking with your local customs office for more information.

Installation Guide

Along with your order, you will receive a detailed installation guide that includes step-by-step instructions and safety precautions. Our scaffolding system is designed for easy assembly, and our guide will help you set up your scaffolding quickly and efficiently.

If you have any questions or concerns about the packaging or shipping of our product, please do not hesitate to contact us. We are committed to providing top-notch customer service and ensuring that your experience with Base Jack Scaffolding is seamless and hassle-free.

Thank you again for choosing Base Jack Scaffolding. We look forward to working with you on your next construction project!
