Electro Galvanized Base Jack Scaffolding The Perfect Support for Construction

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding screw jack
- Model Number: BM212
- Minimum Order Quantity: 1500
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-25
- Payment Terms: L/C, T/T

Product Specification

- Usage: Building Construction
- Product Name: Base Jack Scaffolding
- Warranty: 2 Year
- Material: Steel
- MOQ: 1000
- Color: Silver
- Surface Treatment: Painted/ Electro-Galvanized/ HDG
- Packing: Container
- Highlight: **Construction Base Jack Scaffolding**, **Electro Galvanized Base Jack Scaffolding**, **Perfect Support Base Jack Scaffolding**

Product Description

Product Description:

Base Jack Scaffolding

Base Jack Scaffolding is a versatile and essential tool for building construction. It is designed to provide sturdy and reliable scaffolding support, allowing workers to safely and efficiently work at elevated heights. With its innovative design and durable materials, Base Jack Scaffolding is the ideal choice for any construction project.
Packing: Container

The Base Jack Scaffolding is packed in a container, making it easy and convenient to transport to different construction sites. The container ensures that all the components of the scaffolding are well-protected during transportation, reducing the risk of damage and ensuring its longevity.
MOQ: 1000

The minimum order quantity for Base Jack Scaffolding is 1000 units. This allows for efficient production and ensures that there is enough supply to meet the demands of large construction projects. Customers can also customize their order based on their specific needs and requirements.
Warranty: 2 Year

Base Jack Scaffolding comes with a 2-year warranty, providing customers with peace of mind and assurance of its quality. The warranty covers any manufacturing defects and guarantees that the product will function as intended for the specified period.
Usage: Building Construction

Base Jack Scaffolding is designed specifically for building construction. It is a vital tool for any construction project, providing a safe and stable platform for workers to perform their tasks at elevated heights. It can be used for various construction activities, such as painting, plastering, and installation of windows and doors.
Product Name: Base Jack Scaffolding

The product name, Base Jack Scaffolding, highlights its main features – a base plate and a jack. The base plate provides a stable foundation for the scaffolding, while the jack allows for adjustable height, making it suitable for various construction needs. It also serves as a support for the scaffolding, ensuring its stability and safety.
Key Benefits

Adjustable Height: The jack feature of Base Jack Scaffolding allows for adjustable height, making it suitable for different construction needs and requirements. This versatility eliminates the need for multiple scaffolding setups, saving time and effort.

Durability: Made with high-quality materials, Base Jack Scaffolding is built to withstand heavy loads and harsh working conditions. It is designed to last for years, providing a cost-effective solution for construction projects.

Safety: Safety is a top priority in any construction project. Base Jack Scaffolding is designed to meet safety standards and regulations, providing a secure platform for workers to perform their tasks. It also has anti-slip features and sturdy handrails for added safety.

Construction Efficiency: With Base Jack Scaffolding, construction projects can be completed efficiently and on time. Its sturdy and stable design allows workers to focus on their tasks without worrying about the safety of the scaffolding, ultimately increasing construction efficiency.

In conclusion, Base Jack Scaffolding is a reliable, durable, and safe scaffolding solution for building construction. Its adjustable height, stability, and efficiency make it an essential tool for any construction project. With a container packing, MOQ of 1000 units, and a 2-year warranty, it is the ideal choice for construction companies and contractors. Invest in Base Jack Scaffolding for a safer and more efficient construction process.

Technical Parameters:

Item	Technical Parameters
Material	Steel
Packing	Container
Product Name	Base Jack Scaffolding
Usage	Building Construction
Warranty	2 Year
MOQ	1000
Surface Treatment	Painted/ Electro-Galvanized/ HDG
Color	Silver
Key Features	
Scaffolding support for construction equipment, made of high quality steel with various surface treatments available. Compatible with Base Jack Scaffolding and other scaffolding accessories.	

Applications:

Base Jack Scaffolding

Base Jack Scaffolding, also known as scaffolding screw jack BM212, is a high-quality product that is essential for any construction project. Made of durable steel with different surface treatments, it provides safety, stability, and adjustable load-bearing features.
Our product is manufactured in China Tianjin, known for its high-quality steel production. We take pride in our product's brand name and ensure that it meets the highest industry standards.

Construction

Base Jack Scaffolding is designed specifically for the construction industry. It is used to support workers and materials during the construction process, ensuring a safe and efficient work environment.
