Product Description

Product Description:

Base Jack Scaffolding - Building Construction Essential

Base Jack Scaffolding is a necessary tool for any building construction project. It is designed to provide a stable and durable support system for workers and materials. Made from high quality steel, this product ensures the safety and efficiency of any construction site. With a warranty of 2 years, customers can trust in the reliability and quality of Base Jack Scaffolding. The silver color adds a sleek and professional look to the product, making it an ideal choice for all construction sites.
Key Features:

Load-bearing Base: The base of this scaffolding is specially designed to support heavy loads, ensuring the safety of workers and materials.

Load-bearing Jack: The load-bearing jack provides additional support and stability for the scaffolding, making it suitable for various construction projects.

Base Plate: The base plate is adjustable, allowing for easy positioning and leveling on uneven surfaces.

Adjustable: The height of the scaffolding can be easily adjusted to suit different construction needs.

Durable: Made from high quality steel, Base Jack Scaffolding is built to withstand the rigors of construction work, ensuring long-term use.

Stable: With its sturdy design and load-bearing capabilities, this scaffolding provides a stable and safe working platform for construction workers.

Base Jack Scaffolding is an essential product for any construction project. Its strong and stable design, along with its adjustable features, makes it a versatile tool for a variety of construction needs. With a 2 year warranty and durable steel material, this product is a reliable and long-lasting choice for construction professionals.

Technical Parameters:

Technical Parameters	Description
Product Name	Base Jack Scaffolding
Material	Steel
Color	Silver
Surface Treatment	Painted/ Electro-Galvanized/ HDG
Usage	Building Construction
Warranty	2 Year
Packing	Container
MOQ	1000
Scaffolding Installation	Adjustable base for easy and efficient scaffolding installation
Building Base	Provides a stable and secure base for scaffolding
Scaffolding Base	Designed specifically for use with scaffolding systems
Adjustable Base	Allows for customizable height and leveling

Applications:

Base Jack Scaffolding

The Ultimate Scaffolding Solution for Your Construction Needs

Base Jack Scaffolding is a leading brand in the scaffolding industry, providing high-quality and durable scaffolding solutions for various construction projects. Our product, the scaffolding screw jack model BM212, is designed and manufactured in China, specifically in Tianjin, to meet the demands of the global construction market.

With a minimum order quantity of 1500 and a price range of 4.5-8.5, Base Jack Scaffolding offers a cost-effective solution for all your scaffolding needs. Our product is made of high-quality steel, ensuring good load-bearing capacity and durability, making it ideal for heavy-duty construction projects.

Our scaffolding screw jack is designed for easy installation and has an adjustable height feature, allowing for flexibility in various working environments. It is also stable and durable, providing a safe and secure working platform for workers. Base Jack Scaffolding is suitable for multiple applications, including building construction, bridges, and other infrastructure projects.

At Base Jack Scaffolding, we take pride in our product's quality and offer a 2-year warranty for every purchase. With a minimum order quantity of 1000, we ensure timely delivery of our product, with a delivery time of 10-25 days.

Choose Base Jack Scaffolding for your scaffolding needs and experience the difference in quality, durability, and ease of use. Contact us now to place your order and elevate your construction projects to new heights!
