Product Description

Product Description:

With a variety of sizes to choose from, this scaffold frame can be customized to meet the specific needs of your project. The frame uprights are available in different lengths to accommodate different heights, ensuring that you have the right size for your job.
The scaffold mobile frame is designed to be easy to move and set up, making it an ideal solution for construction sites that require frequent repositioning of scaffolding. The compact design of the scaffold frame also makes it easy to store when not in use, saving valuable space on your site.
This scaffold frame is available in both steel and spray plastic finishes, providing you with the flexibility to choose the right color for your project. Whether you need a traditional steel finish or a more modern look, this scaffold frame can be customized to match your needs.
Shipping directly from China, this scaffold frame will arrive within 10-15 business days. The quick delivery time ensures that you can get started on your project without delay.
Whether you are working on a small renovation project or a large-scale construction site, the Frame System Scaffolding is the perfect solution for your scaffolding needs. With its durable construction, customizable size, and easy mobility, this scaffold frame is a reliable and efficient choice for any job.

Arrival time: 10-15
Color: Steel/Spray Plastic
Material: Q235
Scaffold mobile frame for easy movement
Durable Scaffold Frame construction
Sturdy ladder frame design

Technical Parameters:

Scaffold Portal Frame System	Frame Upright
Arrival time:	10-15
Load Capacity:	High
Size:	Customized
Shipping origin:	China
Material:	Q235
Color:	Steel/Spray Plastic
American Frame	

Applications:

The scaffolding's American Frame design makes it easy to assemble and disassemble, which is essential for construction sites that require quick setup and dismantling. The H frame design is also ideal for maximizing vertical space, making it perfect for jobs with limited space. The scaffolding is available in Steel/Spray Plastic colors.
The BT205 is suitable for a wide range of occasions and scenarios. It is perfect for building construction, renovation, and maintenance. It can be used for both indoor and outdoor projects, including painting, cleaning, and decorating. The scaffolding is perfect for use in warehouses, factories, and workshops where workers need to access high places. It is also ideal for events such as concerts and exhibitions where structures need to be built temporarily.
The scaffolding is packaged in bundles and has a minimum order quantity of 1000. The price of the scaffolding ranges from $10.5 to $35.5, making it an affordable option for construction companies of any size. The delivery time is 10-15 days, and the payment terms are TT/TC.
