Versatile Q235 Steel Ringlock Board Bracket 1M Hot-dip Galvanized for Scaffolding

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BS1704
- Delivery Time: 10-15 working days
- Payment Terms: T/T

Product Specification

- Connection Type: Pin/Spigot
- Material: Q235/Q345 Steel
- Ledger Spacing: 0.5m-2.5m
- Tube Thickness: 3.2mm
- Application: Construction And Maintenance Of Buildings, Bridges, Tunnels, Etc.
- Loading Capacity: Up To 20kN
- Design Style: Industrial
- Tube Diameter: 48.3mm
- Load Capacity: 20kN-30kN
- Versatile: Yes
- Assembly Method: Quick Locking
- Rosette: Q235 Steel

Product Description

Features

Factory Direct Q235 1M Hot-Dip Galvanized Ringlock Board Bracket
Get the most out of your ringlock scaffolding system with our factory direct Q235 1-meter hot-dip galvanized board bracket!

Sourced directly from the manufacturer, this cost-effective bracket provides a secure and reliable platform for laying planks within your scaffolding structure.

Factory Direct Pricing: Enjoy significant savings by purchasing directly from the source, maximizing your project budget.
Universal Compatibility: Designed to seamlessly integrate with most major ringlock scaffolding systems.
High-Strength Q235 Steel: Experience reliable performance and durability with Q235 grade steel, suitable for supporting moderate loads.
Hot-Dip Galvanized Finish: The zinc coating provides exceptional corrosion resistance, ensuring long-lasting performance outdoors.
Secure Ringlock Connection: Integrates seamlessly with ringlock standards for fast and wobble-free assembly.
Quick and Easy Installation: Simplifies scaffold construction and minimizes setup time.

Cost-Effective Solution: Factory direct pricing offers significant savings compared to traditional retailers.
Enhanced Worker Safety: Secure connection and robust construction prioritize worker safety on the jobsite.
Streamlined Scaffolding Construction: Fast and easy ringlock connection simplifies bracket installation.
Long-Lasting Durability: Hot-dip galvanized finish protects against rust and corrosion for years of reliable use.
Increased Project Efficiency: Effortless installation saves valuable time on the jobsite.

Why Choose Us

When choosing Bythai Scaffolding for your scaffolding needs, you benefit from over a decade of industry experience and specialized knowledge that streamlines communication and ensures efficient project execution. We offer customizable solutions tailored to meet your exact specifications, backed by our strict adherence to international, national, and local safety standards. Our commitment to safety is unwavering, guaranteeing compliance with all regulations for every scaffolding operation. Enjoy the advantage of factory-direct pricing with no additional service fees, providing cost-effective solutions without compromising on quality. Our dedication to superior customer service means you receive attentive support throughout your project, ensuring a seamless experience from start to finish.

FAQ

General Questions

Q: What types of scaffolding systems do you manufacture?
A: We produce a variety of steel & Aluminum scaffolding systems, including scaffolding tubes and couplers, Ringlock, Frame, and Props Systems. Scaffolding accessories like planks, ring-lock standard, Ledger, Diagonal, and Screw are also supplied.

Q: Where are your products manufactured?
A: All our products are manufactured in our factory located in China.

Q: Do you offer custom scaffolding solutions?
A: Yes, we provide customized scaffolding solutions to meet specific project requirements.

Q: Why should we buy from you not from other suppliers?
A: We have a group of staff and a technical team with rich scaffolding experience, we have many years of engineering site visits and exchange experience, professionally to provide customers with all kinds of scaffolding consultation and program recommendations.

Q: What successful scaffolding project experience does your company have?
A: We have been involved in many successful projects over the past three years including multi-story buildings, bridge projects, and more. Please refer to our project case page for specific cases.

Product Information

Q: What materials are your scaffolding products made of?
A: Our scaffolding products are made from high-quality materials such as aluminum and steel.

Q: Are your scaffolding systems compliant with international standards?
A: Yes, our scaffolding systems comply with international standards such as BS1139, EN39, and STK400, STK500.

Q: What is the load capacity of your scaffolding systems?

A: The load capacity varies by system, we need to set it up for testing. Please contact our sales team for more details.

Ordering & Pricing

Q: How can I place an order?
A: Orders can be placed by contacting our sales team via email or phone. You can also request a quote through our website.

Q: Do you offer factory prices?
A: Yes, we offer competitive factory prices to ensure cost-effectiveness for our clients.

Q: Is there a minimum order quantity?
A: The minimum order quantity depends on the specific product. Please contact our sales team for more details.

Q: Do you provide discounts for bulk orders?
A: Yes, we offer discounts for bulk orders. Please contact us for a detailed quotation.

Shipping & Delivery

Q: Do you ship internationally?
A: Yes, we ship our products worldwide, with a focus on South America, North America, South Asia, and the Middle East.

Q: How long does it take to deliver an order?
A: Delivery times vary depending on the destination and order size. Generally, it takes between 2-6 weeks.

Q: What shipping methods do you use?
A: We use various shipping methods including sea freight, air freight, train, and express courier services.

After-Sales Support

Q: What kind of after-sales support do you offer?
A: We offer comprehensive after-sales support including installation guidance, maintenance advice, and technical support.

Q: Do you provide warranties on your products?
A: Yes, we offer warranties on our products. The warranty period varies by product.

Q: How can I get technical support?
A: Technical support can be accessed by contacting our support team via email or phone.

Quality Assurance

Q: How do you ensure the quality of your products?
A: We have strict quality control measures in place, including rigorous testing and inspections at various stages of production.

Q: Can I visit your factory for an inspection?
A: Yes, we welcome factory visits. Please contact us to schedule an appointment.

Q: Do you have any certifications for your products?
A: Yes, our products are certified to meet various international standards.

Safety & Regulations

Q: Are your scaffolding systems safe to use?
A: Yes, our scaffolding systems are designed with safety as a top priority and meet all relevant safety regulations.

Q: What safety precautions should be taken when using your scaffolding?
A: Safety precautions include proper assembly, regular inspections, and adherence to safety guidelines and regulations.
